ALL CAMERAS ON DECK

A citizen science project investigating the interaction between **dolphins**, **porpoises**, and **vessels** in North East England.

Marine **MEGA** Fauna
Research Lab
at **Newcastle University**
supported by

REC
00:00:00
HD

We invite you to **submit videos** you have captured of **dolphins & porpoises** in **North East England** to help us learn more about these animals in our region.

Learn more and submit your videos here:

www.allcamerasondeck. wordpress.com

ENCOUNTER LOGBOOK

Use this logbook to keep track of when you have been out videoing whales, dolphins and porpoises.

Remember to always practise **responsible cetacean watching.**

More details can be found in the submission guide.

Video footage

Cetaceans with or without vessels
Try to keep both the animal(s) and vessel(s) in frame

The longer the better
Try to record the encounter for 5mins or more

Recorded in North East England
(Berwick-upon-Tweed to Scarborough)

Animal(s) must be visible surfacing
at least twice

Record the date, time and location

Digital camera
or smart phone

Learn more and submit your videos here: **www.allcamerasondeck.
wordpress.com**
